Pressure Reading in "w.c.

Flow readings in Cubic Feet per Hour (CFH)

Heat Energy Capacity in BTU/Hr

User Friendly Features

- Multi-purpose diagnostic tool boosts start-up and commissioning process
- Lightweight and compact design
- Ideal for servicing, diagnostics, and routine maintenance
- Easy installation with common, off-the-shelf tools

Verification and Data Collection

- Gas flow, capacity and pressure data are easily displayed and uploaded to FloPro™-MD app
- FloPro™-MD app is easily downloadable to iOS or Android devices
- Proper installation or repair can be verified via a .csv data file that can be imported into excel and a report generated for your customer

Recommended Applications/Operating Range

- Natural Gas (NG) Kitchen Appliances: 10,000 to 375,000 BTU/Hr
- Propane (LPG) Kitchen Appliances: 15,000 to 500,000 BTU/Hr

Benefits

- Free app available from the Google Play™ or Apple® App Store® online stores.
- Compatible with Natural Gas (NG) and Propane (LPG) commercial kitchen appliances and equipment at specified flow rates
- Compact, palm size device that is light weight and easy to install
- Easily view real time and recorded data
- Automatically converts gas flow rate (CFH) to capacity (BTU/hr)

Features and Functions

Measures/Displays the Following:

- Gas Flow Rate in Cubic Feet/Hour (CFH)
- Gas Flow Capacity in BTU/Hour
- Gas pressure measurement in inches water column (" w.c.)
- Corrosion-resistant aluminum construction with black finish
- Annunciator LEDs communicate device status
- Standard 3/4" Female NPT connections

Interface & Communications: Android™ and iOS™ mobile operating systems via Bluetooth Low Energy
